SUMMARY

Data Engineer with a strong technical foundation in Management Information Systems and Computer Science. Currently pursuing a Master's in Large-Scale Data Management, focusing on cloud infrastructure. Seeking to leverage skills in SQL, Python, and API integration to build scalable data systems.

SKILLS

Languages: Python, SQL, HTML/CSS

Tools: Tableau, Figma, Excel, SPSS

EDUCATION

M.S. in Information Technology

Florida State University

Dec. 2026

Tallahassee, FL

- **Specialization:** Large-Scale Data Management

B.S. in Management Information Systems

Florida State University

May 2025

Tallahassee, FL

- **Minor:** Computer Science

PROJECTS

Reddit Sentiment Analysis Pipeline

2025

- Wrote a data ingestion pipeline using Python and Reddit API to harvest over 500 user comments regarding Sleeper.
- Implemented VADER sentiment analysis to quantify user frustration around direct messaging.
- Noted a 32.8% negative sentiment towards DMs; significantly more than 23.9% which were positive.
- Surveyed over 100 users to identify what the pain points of DMs were.
- Delivered a one-page summary containing three redesigned screens to help guide the product design team.

EXPERIENCE

Director of Development

WVFS Tallahassee

2024 – 2024

Tallahassee, FL

- Filled in temporarily as a Director for WVFS during a transition in leadership during Q1 of 2024.
- Organized and led weekly meetings to discuss community outreach opportunities within my 23 member team.
- Acquired donations from local businesses to help raise over \$1,500 by the end of Q1.
- Coordinated cross-functional teams to execute fundraising campaigns such as the Birthday Bash and the Great Give.

Electronics Expert

Target Corporation

2022 – Present

Tallahassee, FL

- Assisted guests with any and all electronics needs as the sole Tech team member at my store's location.
- Collaborated with the Store Director monthly to give updates on the department sales and pain points for guests.
- Identified friction points in the checkout process and implemented approved resolutions to maintain efficiency.
- Removed the cash register in the Tech department to eliminate the risk of scams occurring in the department.
- Moved all phone cases into security cases to decrease theft in the Tech department by 22% in Q4 of 2022.
